

Report on the accounting entry of unclaimed dividends as "revenues"

Whereas the time limit for dividend prescription for 2014 will expire on 18 June 2018, we propose to the ordinary general meeting of shareholders to approve that the dividends which have been unclaimed for more than 3 years from their due date and will be outstanding as of 18 June 2018 should be entered as "revenues" in the accounting records of the Company during the financial year 2018.

The unclaimed dividends for 2014, which were outstanding at the end of 2017, amount to LEI 157,818.64 lei. Note that the dividends can be claimed at all the BRD agencies throughout the country until 18 June 2018.
